

The Woodsboro Education Foundation is a non-profit organization which has partnered with WISD to provide means for new programs and activities not supported by tax-based funding. It also promotes and recognizes academic excellence by students and innovative instruction by teachers and staff.

Currently, the WEF is diligently working on fund-raising activities to support grants which will be awarded to WISD staff, compiling a contact list of supporters, and creating social media outlets to inform the public about the organization and its goals.

WISD staff will have the opportunity to apply for grants through an on-line application process. Grant recipients will be able to implement their innovative ideas within their classrooms as soon as materials are acquired.

The grant application roll-out is scheduled for January 2nd, 2024 during teacher inservice where detailed information will be provided.

Woodsboro ISD teachers/staff are encouraged to take advantage of this extraordinary opportunity.
